Sample EPF Calculation

Let's assume the PF wage is ₹ 20,000. The breakup of contribution will be:

Employee's Contribution

EPF (12% of 20000)	₹ 2400
--------------------	--------

Employer's Contribution

EPS (8.33% of 20000 (Max of ₹ 15,000))	₹ 1250
--	--------

EPF (12% of 20000 - EPS)	₹ 1150
--------------------------	--------

EDLI Contribution (0.50% of 20000)	₹ 75
------------------------------------	------

EPF Admin Charges (0.50% of 20000)	₹ 100
------------------------------------	-------

Total	₹ 2575
--------------	---------------
